# **Ahmed Kotby**

# Full Stack Engineer | Mobile Developer

ahmed.m.kotby@gmail.com | +966573383963 | Al-Ahsaa, SA | GitHub | LinkedIn

Full Stack and Mobile Developer with 3+ years of experience delivering scalable web and mobile applications. Skilled in full-stack development with JavaScript, TypeScript, Python, and PHP. Strong in performance optimization, database design (SQL), and test automation. Proficient in Git, object-oriented design, and aligning software with business needs. Passionate about AI, cybersecurity, and clean, maintainable code.

#### WORK EXPERIENCE

Hozma.tech September 2024 – Present

Software Engineer

Onsite

- Participated in Agile sprints, code reviews, and enforced coding standards as part of CI/CD pipeline improvements.
- Contributed to microservice development using FastAPI and PostgreSQL.
- Supported Docker-based deployments and DevOps practices.

**Ejarly** 

**Jan 2024 – September 2024** 

Junior Software Engineer

Onsite

- Led 4+ junior developers as Scrum Master, mentoring them and increasing sprint throughput by 30% using Agile best practices.
- Refactored a legacy PHP system into FastAPI-based microservices, reducing backend response time by 40%
- Redeveloped the company's mobile app using Flutter; enhanced UX and cut crash rates by 60%, with 1,000+ monthly active users.

**Sindibad International** 

Jan 2022 – May 2023

Full Stack Developer

Remote

- Built a React/Next.js/Node.js credential platform for 500+ users with role-based workflows for admins, educators, and students
- Automated certificate generation (-75% turnaround, -200+ staff-hours/month) and added analytics to boost completion rates by 15%
- Optimized Next.js for sub-second page loads and 30% higher SEO visibility

#### **EDUCATION**

#### **King Faisal University**

Al-Ahsaa, SA

Bachelor, Computer Science

*Sep 2020 – May 2025* 

Relevant Coursework: Data Structures & Algorithms, Software Engineering, Object-Oriented Design, Artificial Intelligence, Cyber Security, Database Management Systems

#### **PROJECTS**

## Siraty – AI-Powered Career Coaching Platform

- Intelligent CV builder with real-time AI suggestions to improve structure, tone, and relevance.
- Contributed to full-stack product development, from ideation to deployment of ATS-optimized AI tools
- Job matching insights and embedded analytics that highlight alignment and areas for improvement.
- Built with Next.js 15, Tailwind CSS, and OpenAI, Siraty features full RTL support, responsive design, and a modern glass morphism UI—open-source and tailored for Arabic-speaking job seekers.

## **Weblive - Streaming Platform**

• Built a fast, low-latency streaming platform for podcasts and gaming using Next.js and Nest.js.

- Deployed on AWS S3 & EC2, supporting 100+ concurrent streams with easy scalability.
- Automated CI/CD with Docker and GitHub Actions, reducing downtime by 70%.

## **Ejarly – Business Financing Platform**

- Flutter App: Rebuilt legacy app using Flutter with MVC-repo architecture; improved user experience across iOS/Android and integrated MyFatoorah for payments and improved UX across iOS/Android.
- Backend: Maintained Laravel backend with secure payment APIs; currently migrating to FastAPI with full test coverage (unit, integration, e2e).
- Website: Developed responsive landing page with Next.js 12; deployed using Docker, NGINX, and GitHub Actions for CI/CD.

#### **OpenFiles - Distributed File System**

• Robust data access: Built with Nginx, Rust, and Docker, OpenFiles offers 99.9% uptime, ensuring consistent data availability across the network.

## **Nest.js Framework (Open-Source Contribution PR #12161):**

• Contributed to the development of Nest.js, a widely used Node.js backend framework, demonstrating active participation in the open-source community.

## Falatha – Infant Monitoring & Cry Classification

- Led mobile app development using Flutter, integrating real-time alerts from IoT sensors and ML models.
- Achieved real-time health monitoring (heart rate, temperature, SpO) and distress alerts for caregivers.

## **CERTIFICATES**

- Microsoft Full-Stack Developer Microsoft (May 2025 ID: Z3MC1C4IDNAI)
- **AWS Cloud Technical Essentials** AWS (*May 2025 ID: 63M57UQD77G5*)
- Mathematics for Machine Learning and Data Science Specialization DeepLearning.AI (Sep 2024 ID: 453R6CEF6U6I)

## **TECHNICAL & PROFESSIONAL SKILLS**

#### Hard Skills

- o **Programming Languages:** TypeScript, JavaScript, Python, C++, C#, Java, PHP, Rust, C
- o Web Frameworks & Libraries: React, Next.js, FastAPI, Nest.js, Express.js, Laravel, Flutter
- o Frontend Technologies: HTML5, CSS3, Tailwind CSS, Webpack, Babel, Redux, Responsive Design
- o Backend & APIs: RESTful APIs, GraphQL, Microservices Architecture, Server-side Rendering
- Databases & Storage: PostgreSQL, MySQL, MongoDB, Redis, SQL, NoSQL, ORM (Prisma, Drizzle, Eloquent)
- o DevOps & Tools: Docker, Kubernetes, CI/CD, GitHub Actions, Git, Jenkins, Version Control
- o Cloud Platforms: AWS (EC2, S3, RDS, Lambda), Azure, Linux, Cloud Architecture
- o AI & Machine Learning: PyTorch, TensorFlow, scikit-learn, MFCC, Feature Engineering.

## Soft Skills

- o Creative problem-solving & intuitive thinking
- o Strong communication & collaboration in cross-functional teams
- o Attention to detail and reliability in delivery
- o Leadership, mentorship, and ownership of tasks
- Willingness to learn and adapt to new technologies
- o Versatility across front-end, back-end, and full-stack development
- o Comfortable translating tech to business value
- o Open-source contribution and continuous improvement mindset
